# 1 GETTING STARTED WITH THE PERM ONLINE SYSTEM

---

## Introduction

The Permanent Online System Web site (*PERM*) was developed for the Department of Labor (DOL), Employment and Training Administration (ETA), Office of National Programs (ONP), Division of Foreign Labor Certification (DFLC). It allows employers and their representatives (attorneys/agents) to create and prepare Applications for Permanent Employment Certifications and submit them to DOL for processing. The system improves efficiency for both employers and DOL staff by securely saving application information, and providing reliable access to this information for case processing. The Web-based system also provides a search function, reuse capabilities for submitting forms for multiple job opportunities, and hyperlinks to a number of important resources.

This *User Guide*, designed for employers and attorneys/agents, describes the fundamentals of the Web-based system, including registering, logging in, preparing PERM application, and managing your user account.

## User Types

There are two types of users who are allowed to prepare PERM applications using the online system:

- Employers, and
- Employer's Attorneys or Agents

The PERM Online System for foreign labor certification offers a registration feature **for employers only**. Employers can create sub-accounts for their employees or attorney/agent(s), so that these users can submit PERM applications on behalf of the registered employer. This feature ensures security of the PERM system and helps prevent fraudulent use of the program by permitting only the employer applicant to register. This feature also ensures that less time and effort is required when you wish to enter multiple Forms 9089, because the employer information entered at registration is stored in a profile used to pre-populate key fields of the application. This feature is also very helpful in instances where you need to view or print previously prepared Forms 9089 that have been submitted or are still incomplete. If you register as an Employer, you can manage multiple employees and attorney/agents using the PERM Online system.

---

## Benefits of the PERM Online System

The benefits of using the PERM Online System include:

- Faster application processing time
- Ease of use
- Posting, viewing, and updating profile information
- Tracking and viewing the status of prepared applications
- Printing copies of ETA Form 9089 that you have submitted
- Electronic verification of PERM status
- Ability to save a copy of the Form 9089 to your hard drive, network drive, or disk
- Reusing case information (including employer data) from one application to another

---

---

## System Requirements

Use of the PERM Online System requires the following:

- Internet access (AOL users – there is a known bug with the AOL browser and Web Accelerator that prevents users from properly accessing some web applications. Please use a different browser and/or Internet Service Provider if you experience time-out issues while accessing the PERM Online System through AOL.)
- Web browser (Internet Explorer 5.x or higher, Netscape 4.7 or higher)
- Adobe® Acrobat Reader 4.0 or higher

---

## Security Considerations

In the ongoing effort to provide a useful, effective web site for employers to apply for Permanent foreign labor certification, the Department of Labor also must take certain precautions to ensure the security of the system and the data it maintains. We provide here some useful tips and suggestions when encountering security situations with the PERM Online System.

### Logging In & Out

- If you are unsuccessful at logging into your account, the system will allow you another login attempt, until you have made **three** unsuccessful attempts. After that time, your account will be disabled, and you will have to send an email to [PLC.Help@dol.gov](mailto:PLC.Help@dol.gov) asking to re-activate your account.
- When you login to the **PERM Online System** you cannot use another Web browser to log into the same account at the same time. You can only have one session with your account displayed at any given time.
- You will be prompted to change your password every 90 days.
- It is important that you **log out** of the system when you are not using it. If you leave the system idle for 45 minutes, you will be automatically logged out of the system. In that case, you must log back in when you are ready to continue.

### Detecting Computer Security Incidents

Computer incident detection allows us to compile a record of every system incident when detecting or investigating the misuse of the system and its data. For the purposes of this section, an incident is defined as any real or suspected adverse event in relation to the security of the system.

An incident may include activities such as viruses, strange processes running, an outsider logged into the system, or someone attempting to hack the system, etc. Examples of incidents include (1) attempts to gain unauthorized access to the system or its data, (2) compromising the integrity of the information, (3) unwanted disruption or denial of service, (4) unauthorized use of the system for the processing or storage of data, (5) viruses, and (6) damage or change(s) to the system's hardware or software without permission, knowledge, or instruction.

If you notice a security incident, please immediately report it to [PLC.Help@dol.gov](mailto:PLC.Help@dol.gov). We ask that you provide the following information when you encounter an incident with the system:

- Incident Date and Time
- Reporter's Name, Telephone Number, and Email Address
- Incident Description/Problem Summary

Properly compiling and reporting this information allows us to know what happened, when it happened, and to track, record, and resolve the security issue.

## 2 ACCESSING THE SYSTEM

There are two ways to access the PERM Online System:

- As a first time Registrant, or
- As a Registered user.

To gain authorized access to the PERM Online System as a registered user, you must have created a unique login ID, which you do the first time you access the system. All registered users have access to the rich features of the PERM Online System (see the “Benefits of the PERM Online System” section on p. 6).

---

### Registering as a System User

1. From your desktop, start Internet Explorer or Netscape.
2. Type in the following **Address** for Internet Explorer or **Location** for Netscape:  
<http://www.plc.doleta.gov/> and press **Enter** on your keyboard. An alert message is displayed. Read the message and click **OK**.

A second email is also sent to the employer contact containing a unique 4-digit PIN needed to submit Perm cases to the Online System.

If your business information is *not initially verified*, the employer contact is sent an email asking them to send proof of business entity (e.g. articles of incorporation, business license, state registration, etc.) and proof of physical location (e.g. utility bill, tax record, etc.) to the appropriate processing center, based on the area of intended employment for the occupation for which you are submitting applications. ## Logging Out of the System

To ensure system security, it is important that you log out of the system when you are not using it. When you have finished using the system, you must completely log out. If you leave the system idle for 45 minutes, you will be automatically logged out of the system. In that case, you must log back in when you are ready to continue.

**Tip:** If you are entering a case and have not advanced to a new page in several minutes, you should select '**Save as Draft**' to save the current data before the system times out. Entering data and making selections on a single page does not register in the system as saved actions; if you do not navigate between pages within 45 minutes, the system will time out, and information not saved will be lost.

---

To log out, click  at the top of any screen in the PERM Online System. The system returns you the **PERM Online System Home** page and displays a message that you have successfully logged out.

## 5 *MANAGING USER ACCOUNTS*

Employers can create and manage user accounts for their attorneys or employees. This feature is useful if a company or law firm employs several people to work on visa issues and needs several accounts to access employers' PERM records online. The employer may give access to the attorneys, agents or employees to manage users' accounts.

In this paradigm, only the employer can create sub-accounts under their employer account. The users with the sub-accounts can enter, edit, reuse, and withdraw PERM applications, but they cannot create new user accounts, nor can they edit the employer's business information.

The employer master account can view and edit all of the sub-accounts he/she has created, but the sub-accounts cannot "see" the other sub-accounts the employer has created. When entering cases, the sub-account will notice that the employer's information on the electronic ETA Form 9089 is pre-filled and cannot be edited by the user in the sub-account. When the employer is entering cases, they will have the option of choosing from a list of attorneys/agents that they have already used to populate the Attorney/Agent section of the ETA Form 9089.

### Adding a User

## 6 SUBMITTING PERM CASES

The PERM Online System allows employers and agents to easily prepare a PERM application and submit it to DOL for processing. The online data entry allows faster processing of PERM applications and the ability to view the status of the case within minutes.

### Completing the *ETA Form 9089*

1. From any page on the PERM system, select the **MY APPLICATIONS** tab. The **Search Cases** page is displayed by default.

You can use this screen to search any cases you have started or submitted in the PERM Online System (see **Chapter 9 – Searching and Managing PERM Cases**).

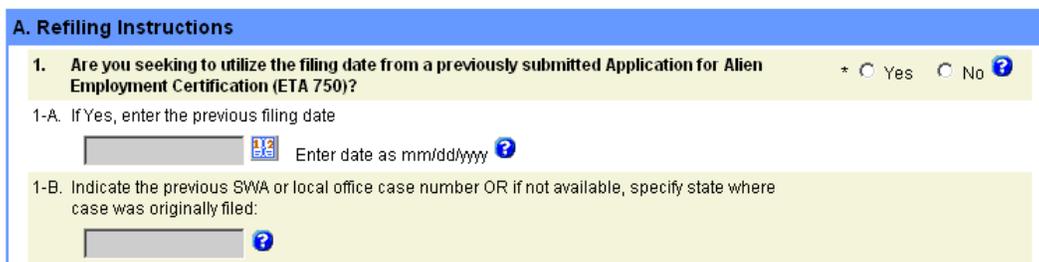

2. Click **CREATE CASE**. **Step 1** of the case is displayed. **Next Page**

**Note:** At the top of each **Create Case** page, the system displays the step of the online *ETA Form 9089* you are currently using. As the step is completed, it changes color from gray to yellow. The Step you are currently on is displayed in blue. You can also navigate back and forward between completed Steps by clicking on the Step number.

### Completing Step 1 of the *ETA Form 9089*

1. In the first section of the electronic *ETA Form 9089*, mark whether you are requesting to use the filing date from a previously submitted Application for Alien Employment Certification (ETA 750).

**Note:** Employing or continuing to employ an alien unauthorized to work in the United States is illegal and may subject the employer to criminal prosecution, civil money penalties, or both.

**Tip:** Many of the fields in the electronic Form 9089 may appear gray and you cannot type in them (for instance, fields 1-A and 1-B). These fields will become “enabled” after you answer the associated question in a certain way.

2. In section B of the 9089, select whether this application is in support of a Schedule A or Shepherd occupation. If you answer *Yes*, you will navigate to **Step 2** of the Form to fill out your employer address information. At the end of that step, you will not be allowed to continue entering information into the ETA Form 9089, as you must apply directly to the appropriate Department of Homeland Security office.

**B. Schedule A or Shepherd Information**

1. Is this application in support of a Schedule A or Shepherd occupation? \*  Yes  No ?

If Yes, do NOT send this application to the Department of Labor. All applications in support of Schedule A or Shepherd Occupations must be sent directly to the appropriate Department of Homeland Security Office.

Next Page Save As Draft Reset Yes/No Selections Cancel

3. To continue to **Step 2** of the **Form ETA 9089**, click **Next Page**. **Step 2** is displayed.

**Tip:** Use **Save As Draft** to save your work on the form up to that point. You will be able to return immediately to the form where you left off, or return to it at a later time. To view instructions on how to find and return to Incomplete Cases, see **Chapter 7 - Searching and Managing PERM Cases**.

**Tip:** Use **Reset Yes/No Selections** to blank out the Yes/No radio button selections on a page. If you just need to choose the other option (i.e. *Yes* instead of *No*), simply select it.

## Completing **Step 2** of the **Form ETA 9089**

1. In **Step 2**, you will view the employer’s business information, and enter the Number of Employees.

**Note:** Employer information in fields (1-4) and (6-8) should be pre-populated from the **Employer Data** entered during registration.

## PERM - External Upload Quick Guide

This *Quick Guide* was prepared for external users for PERM CMS as a basis for instruction for using the external upload functionality. It was prepared to serve as a handy desk reference. The external user will now be able to upload documents to the system as needed. This function is not specific to any specific external role, (i.e. employers, agents, attorneys) all have the capability to upload documentation.

- **Pre-condition:** The external user will already be logged into the system, and the ‘My Applications’ tab will be selected.
- The user will now see a new sub-tab under the ‘My Applications’ tab, which is ‘Upload Documents’.

- The user will now search for the case number for the application that he/she wants to upload documents too.
- The system will display the search results.

**NOTE:** Documents can be uploaded up to 30 calendar days after the notice of proposed final agency action is issued on an application. The ability to upload documents up to 30 calendar days after the notice of proposed final agency action is issued on an application shall not be construed to: 1) supersede time frames and deadlines imposed by the Department’s actual notice letters to filers in any medium (electronic or otherwise); or,

2) supersede applicable regulations governing the Department's permanent labor certification program.

**NOTE:** Documents can't be uploaded to an application in the status of 'Incomplete' or 'Certified-Expired'. Also if you're an agent or lawyer, only the account that created the application has the ability to upload documents.
